MAIDS TO THE QUEEN

Unsuccessful Candidates Have Expressed Their Wishes.

Queen Carmelete will have no lack of maids of honor. There have already been a number of names proposed, a number of whom are well-known and popular young ladies in this city.

Usually there is considerable bitter feeling left in the train of an election of Carnival Queen or Goddess of Liberty, but in this case there is nothing but well wishes for the success of the fiesta.

Miss Lou Becker and Miss Kate McGowan, the two unsuccessful candidates, displayed their loyalty to the Carnival and fealty to the town of Reno by willingly consenting to act as maids of honor to the young lady who polled the greatest number of votes.

Other young ladies of this city who are willing to accept a similar honor are said to be Miss Levy, Miss Parry, Miss Michel and Miss Mapes.

Maids have also been chosen from Humboldt and Eureka counties. In a day or two Ormsby, Douglas, Storey and possibly several other counties will be heard from.

The Carnival spirit is spreading throughout the State. It is no longer a Reno, but a Nevada fiesta, and the entire State will be present in person or in spirit.

Long live La Fiesta! Long live Queen Carmelete!

Eureka Interested in the Carnival

J. P. McElroy has received a letter from Eureka giving the result of an election held there to choose a maid of honor to the Queen of the Reno Carnival.

The candidates were Mary Fraser and Nina Whitmore. Miss Fraser received 1511 votes and Miss Whitmore 8165.

Eureka is taking a great interest in the Carnival and a number of Base Rangers will attend the fiesta.

Originated Here

An article in the San Francisco Chronicle gives a New York physician credit for the discovery of the therapeutic value of the X-ray. The credit for this valuable discovery properly belongs to two Renoites. This discovery was made five years ago by Prof. Willis G. Caffrey and Prof. N. E. Wilson. They successfully treated a number of cases of blood poisoning, rheumatism and other ailments.

Deal Consummated

James Yerington is expected back from the east about the 24th. He has successfully consummated a deal for valuable mining property in Esmeralda county. The mines will be extensively developed and a mill erected at once. Mr. Yerington's deal is said to run well into six figures.

Operating a Mine

Patsy Nathan received a letter yesterday from Bren Smith who, with Captain Linscott, is operating a mine in Plumas county, near Taylorville. The boys are doing very well. They have started up their mill on a big run of ore.

Appointed Agent

J. T. Butler, who has been acting agent for the Wells-Fargo Company at this station for the past year, yesterday received his appointment as agent. Mr. Butler has served the company for the past fifteen years.

The shaft on the McKinly mine is now down to a depth of 260 feet and cross-cutting will be commenced at the 300-foot level. In addition to the copper values a good body of low grade ore, averaging $5 to the ton has been disclosed.

R. C. Lane, representing the Chicago company of capitalists who bonded the North Bonanza and Flowery district mines in Flowery district, was an arrival today and will be the guest of Thomas Carney at the mayoralty mansion in Six-mile canyon.—Report.

Race for Championship of the Coast

The Reno riders are out daily practicing. Although the local team has lost three of its best riders Trainer Ryan expects to put the strongest team from Reno that has ever ridden on the Pacific Coast. There will be fourteen speedy goers from which to select the team that is expected to retain the championship here. Some of the boys are making phenomenal records.

It is understood that Carson is out for the blood and will bring a strong relay team here for the Carnival race.

Wants to Celebrate

Editor Journal—When the President signs the Irrigation Bill the people of Reno should immediately hold a great jubilee. This will be the best news ever received in Nevada.

DEMOCRATIC SIMPLICITY AND ORIENTAL GRANDEUR

There is a vast difference between them. This is more apparent in personal adornment perhaps than anything else. One of the reasons so many Reno people have ther clothes made by me is that I make their clothes in a stylish manner, yet neither gaudy nor plain. Let me take your measure the next time you need a suit of clothes, and the force of this argument will strike you in a more convincing manner

TONOPAH DIRECTORS

Eastern Capitalists Return from a Visit to the Camp.

Last evening the private car Riva came in from the south attached to the V. & T. express. It bore a party of capitalists who had been inspecting the property of the Tonopah Mining Company.

The party consisted of Preston Lea, Wm. G. Mendinhall, Joseph Swift, William F. Sellers, J. Harvey Whiteman and Victor B. Woolley of Wilmington, Delaware, C. A. Daniel, W. P. Bement, W. E. Aumont and C. R. Miller of Philadelphia and Vinton Liddell of Charlotte, South Carolina.

Mr. Miller is vice-president of the Tonopah Mining Company and Mr. Daniel and Mr. Mendinhall are directors in the Company. All the members of the party are heavily interested in the new mines.

These mining men travel in sumptuous style. Their car is a palace on wheels, and its commissary is stocked with the choicest viands.

Mr. Miller informed the representative of The Journal that this is his third trip to Tonopah. He expressed himself as greatly pleased with the outlook of Nevada and its mineral possibilities and stated that he is convinced that Tonopah is the greatest mining camp on earth, but he declined to go into any details regarding the plans of the company.

The trip, he said, was simply for purposes of observation, and not to institute any radical changes in the manner of working the mines.

The party left for San Francisco last night. They will return east via the northern route.

COMMITTEE REPORTS

Regarding Site for the Carnegie Free Public Library

The following report on a site for the Carnegie public library has been made to Chairman Flanigan:

Your committee to investigate the subject of suitable sites for the Carnegie Free Public Library Building, respectfully reports as follows:

Based upon the figures of the last government census, it is estimated that about three-fifths of the population of Reno School District is south of the line of the railroad and about two fifths north of it. In considering sites, the committee have had in view only such as were reasonably centrally located.

Five sites have been considered, viz:

The Plaza between Virginia and Sierra streets.

The north side of Second street between Sierra and West streets.

The south side of Second street between Sierra and West streets.

The vacant lot at the southeast corner of the iron bridge, between the Riverside Hotel and the Westerfield residence.

The park opposite the Court House.

We have ascertained that the railroad company cannot legally convey any of its property on the Plaza.

The Chism estate has offerel to sell a lot of land in block N between Sierra and West streets, fronting 80 feet on Second street, extending in depth northerly 75 feet and bounded on the east by an alley, together with the improvements, for $4000.

Mr. J. F. Stewart offered to sell, for library purposes, a vacant lot in block U, fronting 65 feet on West street and 90 feet on Second street for $3000.

Whether this offer would be continued by the heirs of Mr. Stewart, the committee has not yet been able to ascertain.

The vacant lot of ground upon the south bank of the Truckee river between the Riverside Hotel and the Westerfield residence would be a very suitable site, as would also the public park in front of the Court House. The two sites last named have the advantage of being public property, and if they can be obtained at all, can be had without expense. There is some question as to the legal right to use the park for other than park purposes, but if the public generally desire it to be so used, doubtless any legal objections, if such exist, can be obviated.

We recommend that you call a public meeting at an early date at which the question of site can be discussed and some one place agreed upon.

Respectfully submitted,
GEORGE W. MAPES,
E. H. PRENTICE,
W. J. WESTERFIELD,
F. H. NORCROSS,
HENRY THURTELL,
Committee.

OF INTEREST TO RENOITES

Government Regulations Regarding the Public Building Site

In some places where a public building has been authorized by law a site is donated, but before such donation can be accepted the Government ascertains whether the lot is suitable in all respects for the purpose intended, with clear title, etc.

When a site must be purchased, however, proposals to sell the necessary land are invited by the publication in the local paper of an advertisement which gives the approximate size of the lot required, being a corner lot, states that the site must be on a corner centrally and conveniently located; that the vendors of the site chosen must furnish at their own expense all abstracts, official certifications, evidences of title, etc., deemed necessary by the Attorney-General, and must remove any improvements that may be on the land whenever required to do so; and gives such other points as it may be considered necessary to have covered in the bids The proposals are opened on the day set in the advertisement, and as soon as possible an agent of the Department is sent to make a personal examination of the properties offered. When his report has been submitted the Department makes the selection, and the proposal of the owner of the land selected is formally accepted, upon the conditions named in the advertisement and, further, that the Attorney-General shall give a favorable opinion as to the validity of the title to the property. Generally, the notice to remove improvements is not given until some time after the purchase has been consummated. When the owners of the land chosen are unable to make good voluntary conveyance, or if it is not possible to agree upon a reasonable price for the site selected, the land may be condemned.

After the State shall have ceded to the United States exclusive jurisdiction over the land (if such cession has not already been made,) and the title to the site has become vested in the United States, the plans for the building—based upon reports from local and Washington officials as to the accommodations necessary to be provided—are taken up in due course, the work placed under contract and the building erected as speedily as the circumstances of the case permit.

Acting Secretary.

JOHN H. DENNIS, Editor

A THREE WEEKS' RECORD.

WONDER if it isn't about time for the Carson News to distribute the standing paragraph on its galley: "What has Newlands done for Nevada?" Within the last three weeks he has secured the passage of the $400,000 war claims bill which has been hanging fire for nearly a quarter of a century; he has steered the Reno public building appropriation into the Omnibus bill which secured its passage in the house, and was the recognized leader in the contest for the irrigation bill which will benefit our State more than all other previous congressional legislation, and which will, in a few days, become a law of the land.

WOULD BE WELCOMED IN NEVADA.

WITH the close of the war in South Africa comes a revival of the story that many of the defeated patriots will settle in the United States. Some efforts to have them do so were made, while the war was in progress, and the leaders are now considering the matter since they are no longer needed there. A home in the United States though far away from the land of their birth, would be preferable to life in a British province in Africa, when they have been deprived of the franchise, as the so-called rebels are to be and such men, as they, would make good citizens of the United States. We wish that a few thousands of them, at least, would come to Nevada. They are of the agricultural class and would be a valuable and desirable addition to our population. The opening up of our arid and semi-arid lands to cultivation will furnish plenty of room and employment for five times our present farming population, and a few thousands of industrious and patriotic Boers distributed over the State would not only aid materially in the development of our productive resources, but furnish a class of citizens who have proven their fitness to exercise the elective franchise in a manner that would add to the dignity and honor of our commonwealth, as they maintained, although defeated, the honor and dignity of their little republics, which are now, no more.

* * * * *

WAGES, AND COST OF LIVING.

WITH the coal trust, and the meat trust furnishing conspicuous examples of the increase in the price of all the necessities of life, with the cost of living increased one-third or more, and with no compensating increase in wages, the men who work for a living can well inquire, where is their share of the alleged general prosperity. Some workmen have won after striking for higher wages. Some employers have voluntarily granted an increase. But in the great majority of cases, among those who work for wages and those employed on a salary (a distinction without a difference) the income has remained practically the same, while it costs much more to live than it did four or five years ago. The prosperity is for the trusts. The payment for it comes out of the pockets of the consumers.

"DON'T GO NEAR THE WATER."

PRESIDENT ROOSEVELT is quoted as saying that the Filipinos should not be allowed to govern themselves until they have proven their ability to do so. This is aptly illustrated by the old lady in her dialogue portion of the familiar ditty:

"Mother may I go learn to swim?
Yes! my dearest daughter;
Hang your clothes on a hickory limb,
But don't go near the water."

According to Mr. Roosevelt's theory, no child should be permitted to walk until it has demonstrated to its nurse that it can walk.

There was a time when the Mexicans did not know how to govern themselves as estimated by those claiming more civilization and if the privilege of trying had not been accorded them the world would never have known how fully competent they are. But they were given the opportunity and the result is most assuring, for those people are building up a republic that is comparing most favorably in all things, with the most advanced and civilized government, in the world. The declaration of President Roosevelt is the most superficial, not to say nonsensical that has been made in connection with our Philippine policy.

PROF. MOORE'S HOUSE COOLER.

THE JOURNAL a few days ago had something to say in regard to a house cooling apparatus, which has lately been invented, and which was strongly recommended by the secretary of agriculture, not, however, in his official capacity. Prof. Moore of the weather bureau was the inventor and has secured a patent on his apparatus, which he will soon place upon the market. He has one in operation in his office at Washington that is demonstrating its efficiency to all callers.

The machine looks like a cylinder stove, and the inventor says, will in time come to be considered as essential to the comfort of a dwelling in the summer as heating apparatus in winter. Prof. Moore says that the cost of cooling a given space with his machine is approximately the same as that of heating the same space by means of stoves or furnace. Besides this the different uses to which the machine may be put, are unlimited. He expects it to prove of great value to hospitals, particularly in reducing the temperature of wards in which fever patients are confined, and in addition to its use for cooling residences and hotels, he says it solves the problem of individual cold storage. It requires no motive power, its action being dependent on gravity. It cleanses, dries and purifies the air, as well as cools it, and works automatically, operating more rapidly when the weather is very warm than when it is moderately so. Everybody may be happy even in the most torrid weather by remaining in doors and using one of these machines.

SPEAKS FOR GOD.

DIVINELY favored; or extremely and arrogantly presumptious is the man who sets himself up as the direct spokesman of the Almighty.

There is such a man in the person of Bishop Thoburn of India. This man gave testimony before the Philippine committee of the senate, and in the course of his remarks declared that God was responsible for the acquisition of the Philippine islands by the United States, and that our continued occupancy of the islands was necessaay to carry out the plans of the Almighty.

NEWS FROM FLORISTON

Special Correspondence from Our Neighbor Up the Hill

M. R. Cowil, who has had the management of the paper mill for the past year, has resigned, and W. K. Bradbury has been appointed local manager in his stead, with Mr. Shepherd as superintendent. The sulphite department will be managed by M. S. Ele.

Mr. Bradbury is well known in Reno, as he has resided in Floriston since last September and formerly had charge of the sulphide department. Mr. Shepherd is recently from Washington state, but his home is in the east. M. S. Ele is a native of Norway, but more recently of New York state. M. S. Goodman will continue to hold his former position as chief bookkeeper and manager of the office.

L. Schenabacher, the secretary and general manager of the paper company, was in Floriston Thursday and Friday, attending to the business connected with the transfer of officers of the paper mill.

Mr. Sumner arrived yesterday from Michigan and will work in the finishing room of the paper mill. Mr. Sumner will be a valuable addition to the town as he is a talented musician and an expert in baseball.

The foundation for a new digestor, with double the capacity of the old one is progressing. It has been shipped from the east and when installed the capacity of the sulphite department of the mill will be greatly increased.

Charles Buie and Percy Leadbetter, both Reno boys, are working in the paper mill during their vacation. Mr. Leadbetter will strengthen our baseball team considerably.

We want to let the Reno people know that we have a good brass band, and if the Carnival management know a good thing, they will try and make arrangement to have the band in Reno on the 4th inst. Every other Saturday they give a dance, and their music gives entire satisfaction.

Great credit is due H. Pople, the leader, for his efforts towards making the band what it is. A band stand will shortly be erected, and then we are to be favored with open air concerts.

M. S. Goodman went to Reno yesterday to attend the Nevada Club party.

Bud Rolland and Whit Prentice visited friends in Reno last week.

Mining Exhibit from this State

Division Agent Prentice yesterday secured from White Pine district a most valuable collection of minerals. With what he has in his office for exhibition purposes it will make a most creditable display. Most of the choice specimens will soon be sent to Denver to be displayed in R. R. window as an exhibit from Nevada.

His display at Market and Montgomery street, San Francisco, is attracting a great deal of attention and favorable comment.

The press of Nevada and San Francisco aid Mr. Prentice in calling mine owners' attention to his efforts for advertising Nevada—by having them send him by express, all charges paid by Mr. Prentice, direct to Reno.

VIRULENT CANCER CURED.

Startling proof of a wonderful ad[illegible] given by [illegible] Va. An old man [illegible] had long [illegible] with [illegible] good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklen's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and microbe poisons at the same time this salve exerts its matchless healing power, blood diseases, skin eruptions, ulcers and sores vanish. Bitters 50c, Salve 25c at S. J. Hodgkinson's.

WEATHER REPORT

Climate and Crop Conditions of the Past Week.

The temperature has been above normal in nearly all parts of the State during the past week. No frost is reported. Scattered showers occurred in White Pine county, on the 11th and 12th.

The weather conditions of the week have been very favorable and crops of all kinds have made rapid and satisfactory growth.

In the western portion of the State barley is headed out and the first crop of alfalfa will be ready to cut during the coming week; the crop will be heavier than usual in most localities. Strawberries are ripe in Washoe valley.

In the eastern part of the State the principal crops are reported to be doing well, but they will be later than usual in maturing, owing to cold weather the latter part of May

In Elko and Humboldt counties, the grain, hay, fruit and vegetable crops are growing nicely and look very promising.

Harvesting continues in Lincoln county, with satisfactory results.

Wabuska—The past week was the first for the season without frost. Warm days and cool nights prevailed All crops doing well. Alfalfa commencing to bloom close to the ground. —J. G. Young.

Lewers' Ranch, near Franktown—Crops growing fast. Some strawberries ripe and being marketed. Irrigation going on. Washoe lake high. Pears in bloom. Valley looking well. —Mrs. Ross Lewers.

Wadsworth—The weather during the week has been warm and all crops have made rapid growth. Some of the farmers here have been cutting alfalfa and the crop is better than for several years past.—T. G. Herman.

Martin's Ranch, near Gardnerville. —All crops have made rapid growth during the past week. Very little hay will be cut in June. Highest temperature during the week 94 on the 10th; lowest 36 on the 15th; no rain.—J. H. Martin.

Fallon—Warm all week. Barley is headed out and looks well. Alfalfa beginning to bloom and is a heavy crop. Haying will begin in about a week. Bees making honey. Nearly all bees that were out of the hives perished in the terrific sand storm of May 31st.—J. W. Ferguson.

Leetville—The past week has been warm and good growing weather. Alfalfa blooming, barley beginning to head, plenty of water for irrigation. —W. F. Kaiser.

Stillwater—The forepart of the week was very warm, the change to cooler came the middle of the week, ending with delightful weather. Vegetables are growing fast. Hay will be two weeks later than usual.—J W. Freeman.

ADVANCEMENT OF NEVADA

A Mining Paper Makes Very Favorable Comment

Mining progress is becoming more and more active throughout the State of Nevada. There have been more developments in both old and new districts and more new mining plants erected during the past year, than in any other year for a long time. All this augurs well for the future of the State. Even on the old Comstock things seem to be livening up, says the Mining and Engineering Review.

The C and C. shaft of the Consolidated California and Virginia mine, continues to produce some fine ore, which is being run in the Kinkead mill It was way back in '74 that the news of the fabulous richness of the Consolidated Virginia was first given to the world, by Philip Deidesheimer, afterwards superintendent of the Hale and Norcross mine. Since then, in the neighborhood of $150,000,000 has been taken from this wonderful mine. Even at the present time there are 150 men on the pay-roll.

It is related that while the late James G. Fair was superintendent of the Hale and Norcross mine, in the early 80's, he did considerable work on the 750-foot level and after being firmly convinced that he had taken out everything on that level, decided to abandon it. William Pierce, the foreman, however, had a different idea and with Fair's permission continued some little distance on the 750-foot level When about 300 feet from the shaft, his efforts were crowned with success, for he encountered a ledge from which was taken over $7,000,000. Mr. Pierce is at present foreman of the Overman mine under Superintendent W E Sharon
